Building Permits Being Taken Out in Spite of the Rain

Rain does not seem to have affected yesterday's building permits, according to W. J. McIntyre, chief clerk of the building department. He admitted, however, that contractors whose men had been doing exterior work would either have to be put to work on interiors or laid off until the precipitation concludes. Lack of definite information as to how many buildings are under construction at this time prevented him from being able to figure how many workmen might be affected.

The following permits were issued yesterday:

Mrs. Elsie Chamberlain, 5 rooms and garage, 908 East Acacia street	$2,500
John D. Todd, 4 rooms and garage, 547 West Wilson avenue	1,400
John A. Fisher, 5 rooms and garage, 606 West Doran street	3,000
F. W. Murphy, 4 rooms and garage, 200 West Laurel street	2,500

Next Week's Gathering of Elk Is Called Off

Several hundred members of the local Elks' lodge braved last night's rain and attended the regular meeting of the organization, which was the last to be held this year. By a special vote of the members it was decided to cancel next week's meeting, it falling on a legal holiday.

Following the business session of the club the members were treated to a brief concert by the orchestra, of which J. A. Becker has assumed the leadership succeeding R. E. Olin, who resigned recently. A single turkey contest, speeches by a number of visiting Elk and the usual "midnight" luncheon in the Jinks room were the remaining features of the evening.

While Mr. and Mrs. Case were visiting a daughter, Mrs. A. H. Brown of Brea, their children in Glendale planned a surprise for them in the form of a family reunion.

Returning about 1 o'clock Sunday afternoon Mr. and Mrs. Case found their home brightly decorated with a profusion of golden flowers and greenery, and all of their children were there to greet them. An interesting feature of the occasion was the fact that all their six children are living and reside within a few hours' ride of the family home.

After the first moments of surprise and words of congratulation, a bountiful turkey dinner was served. The table was centered with a bowl of tiny yellow chrysanthemums. Each place was marked with a card decorated with yellow roses and also yellow bon-bon baskets.

SCORE OF FAMILIES MAROONED BY SAN GABRIEL RIVER

Serious Damage Being Done to Roads and Bridges in Southland, Is Report

Dispatches to The Glendale Evening News over its International News Service leased wire today state that with a score of families marooned by flood waters of the San Gabriel river a few miles east of the city, and with waters still rising in many streams as the downpour continued, the storm situation in southern California is critical.

Reports of damage to bridges and highways, of serious interruption to telegraph and telephone service and of delays to railroad and interurban traffic were received from practically all of this section of the state during the day. The Los Angeles river is at flood stage and still rising.

Official Figures

Official figures of the rainfall in Los Angeles for the last twenty-four hours showed a total of 1.82 inches. The total for the storm is 2.78 inches and for the season, 4.04 inches, as compared with 2.93 inches for the corresponding period in 1920 and an average seasonal fall to this time of 3.87 inches.

The heaviest rainfall in the mountains was on Mount Wilson where 11.39 inches fell in the last twenty-four hours, making 16.39 inches at that station for the storm.

At Pasadena the rainfall for the last 24 hours was 2.75 inches, making the storm's total 4.76 inches.

The Los Angeles government weather bureau predicted a continuation of the rain today and probably tomorrow, according to a dispatch received by The Glendale Evening News.

Good Evening! Have You Had Your Roof Patched Yet?

How many leaks in the roofs of homes and business blocks cannot be tallied, but suffice to say hardly a building in southern California did not show some weak and watery spot.

So accustomed have builders become to the land of almost eternal sunshine that they neglect to make roofs, skylights and window sills water tight.

Roofing and plumbing crews are busy today and the sheet metal menders are reaping a harvest. Street cleaning crews also are busy clearing the silt from the boulevards and in some instances first-class firewood is found washed far from where it laid before the rain.

P. Diederich, plant and production superintendent of the public service department, had a crew of men on watch throughout the day and night to avoid impairing either the light or water service.

Mr. Diederich, while on duty last night in his high top boots and old clothes, vividly recalled the flood of 1914 when the wash overflowed and gave his crew a real battle. A burst gas main, fallen power lines, inundated conduits and a dozen other dilemmas were finally overcome.

1000 FOLK EN ROUTE TO L. A. STRANDED OUT ON DESERT

Trains Stalled by Landslides, and It Will Require Many Hours to Clear Tracks

By CHARLES E. HUGHES,
Written for International News Service

LOS ANGELES, Dec. 20.—One thousand passengers bound for Los Angeles on the Santa Fe and Salt Lake routes are stranded at Barstow and Daggett due to a landslide in the Cajon Pass, the second since the rainstorm broke over southern California. It will take twelve hours or more to clear the tracks of fifteen feet of mud covering a distance of 150 feet. The slides took place twenty-four miles northeast of San Bernardino.

Holiday visitors will be delayed and all east bound trains are being held in Los Angeles until the tracks are cleared. The Santa Fe and Salt Lake lines use the same tracks through the Cajon Pass. Passengers are being cared for at El Desierta hotel in Barstow.

Flood at San Diego

San Diego is flooded in a few places, according to reports from there this morning and street car service is crippled. A Santa Fe train narrowly escaped being wrecked as the result of a washout near the southern city.

The home of former Congressman Charles H. Randall in the Arroyo Seco, one and one-half miles below Oak Wylde camp, is reported in some danger, according to Pasadena dispatches. The water at Devil's Gate dam is now at seventy-two feet, a twenty-foot rise during the night.

No Bodies Are Found

San Gabriel still is rising and the $100,000 cement bridge under construction near El Monte has been washed out. While the Pacific Electric is meeting with some delay in its schedules, cars are getting through on all lines except those out of San Bernardino.

Children were reported lost in the lowlands near Long Beach, but the police there could not verify this report as no bodies have been found. Three families living in the flooded area were rescued last night by Lieut L. H. Johnston and Police Officer Sims of the Long Beach force, who went after them in boats.

City School Bonds Placed Upon Market at Mark Above Par

He said that this meant that the board of trustees will not have to worry about the bonds for some time.

The bids were opened in Los Angeles yesterday in the presence of Mr. White and David Black of the local board.

HEAVY RAIN DOES PRACTICALLY NO DAMAGE HERE

Some Small Individual Losses Reported, but Situation Generally Is Good

LOCAL RAINFALL FIGURES

Reported by T. W. Preston at 8 a. m.

For the 24 hours	3.82
This storm	6.18
Season total	7.21
Last year	3.00

Extraordinary precautions are being taken by Glendale officials to avoid flood damage in this city as a result of the rains since Saturday night. Other than muddying the streets and stopping Christmas trade, no noticeable effect of this most general storm on the Pacific coast has been felt locally.

"It is astonishing how little damage has been done," said City Manager Reeves this morning. Two gangs of men are working on the streets to keep them passable. A survey of the Verdugo wash this morning showed the flood being carried off in good shape and unless there should be a cloudburst in the hills there is no danger of an overflow.

Many basements have been filled with water, dikes are protecting excavation work on construction jobs and builders are tied up temporarily by the rainy weather. No consequential building permit has been issued since Saturday.

Many Children Stay Out

Are your "kiddies" in school?

Richardson D. White, superintendent of schools, stated this morning that he had no reports to show just how many children were absent from the various schools, but that 264 or about half did not report this morning at the Intermediate school.

The children may go swimming during the Christmas vacation, which starts tomorrow, according to Mr. White. He admitted that this was about all they could do outside. Meanwhile, teachers of the district are getting out their galashes and preparing to attend institute in Los Angeles for the next three days.

Rain Big Benefit From Health Standpoint, Claimed

Rain makes the flowers bloom; it also makes Dr. J. E. Eckles, city health officer more jovial and optimistic than ever.

From a health standpoint Dr. Eckles feels that the tears of Mr. J. Pluvius are a distinct benefit to the community.

"It seems to me after due reflection and deliberation that it has been a wet rain characterized by H. 2 O. mixed with some earthy matter," declared Dr. Eckles this morning. "Outside of the fact that the precipitation is slightly rapid and overdoing it in some spots, everything is all right. Being a good Californian and a good Glendalian, I am still boosting."

Whenever a prolonged spell of fairly warm weather continues during the winter months disease germs have an opportunity to breed, according to Dr. Eckles who called attention to the number of cases of sickness in the east during an open winter. He stated that while this is a warm rain it would have the same effect as a cold spell in the east because the general range of temperature is moderate. Dr. Eckles asserted that the atmosphere had been filled with billions of particles of dust during the last wind storm but admitted that he had not had time to count them. These dust particles lodging in throats and respiratory organs have caused irritation and many cases of sore throats and epidemic colds have lowered resistance, making diphtheria more probable.

"We are much in hope that the health situation will be decidedly improved by this rain," remarked Dr. Eckles. "It shows evidence already. There are fewer cases of epidemic colds and diphtheria is on a slump. The rain has cleared the atmosphere of dust particles. The air being clearer, naturally we feel better and when our general spirits are improved we are better physically. That's common sense!

"I am glad to notice that the diphtheria situation has cleared up. Most

PROPOSE RECEIVERSHIP BE APPOINTED FOR GERMANY

LONDON, Dec. 20.—Recommendations that a receivership in bankruptcy be appointed for Germany if the indemnity moratorium is granted, were made to Premier Lloyd George and Premier Briand this afternoon by the experts who have been studying the reparations situation and Germany's financial position. The opinion of the experts was understood to be unanimous. Following their discussions the experts reported as follows: 1—The allies should insist that Germany is able and must pay the January and February installments. 2—In the event a moratorium or a partial moratorium is granted the powers of the allied (reparations) commission, as guaranteed under the treaty of Versailles, shall be extended to give the allies control of German finances. The effect of this latter condition would be a formal receivership for Germany with an allied "bailiff" exercising full authority over Germany's affairs. of the cases are now merely awaiting cultures before being released. The state board of health requires two negative cultures forty-eight hours apart before a patient is released from quarantine. Half of the cases here may be released this week.

"The most cases of diphtheria we have had at any one time here has been twenty. I would like that underscored. Some people have gotten the idea that there were a lot more cases—400 or 500. Four or five scarlet fever cases is our maximum. The situation is well under control and always has been.

"We have absolutely no intention of closing the schools now or in the future unless the situation gets very much worse. In fact, the state board of health is discouraging any attempts along that line because the children can be supervised better in schools."

Man Sentenced to Death While Wife Attacks Attorney

CLEVELAND, Ohio, Dec. 20.—Dominic Benigno, alleged slayer of Wilfred O. Sly and George K. Fanner, in a payroll robbery on December 31, last, was found guilty of murder in the first degree and sentenced to death. Benigno is the third member of a gang of six to be given the death penalty. Frank Motto has already been electrocuted, while Sam Purpera is awaiting death at the Ohio penitentiary.

When the verdict was read in court, Mrs. Benigno, young and pretty, who had sat at her husbands side throughout the trial, created a scene.

Jumping to her feet, Mrs. Benigno screamed:

"I'll go to the chair with my husband. I'm going to kill Cassidy."

Taking a straight dive for James H. Cassidy, assistant prosecutor, who conducted the case, she grabbed him by the hair and scratched him about the face and eyes. She was seized by two police officers and carried screaming from the room.

Hundreds of Soldiers Illegally Slain, Claim

WASHINGTON, D. C., Dec. 20.—Senator "Tom" Watson, Democrat, Georgia, announced today that he would insert in the record of the next meeting of the Senate committee investigating his charges, that American soldiers were illegally killed in France, a letter charging that over "200 soldiers were illegally hanged or clubbed to death by officers and never reported" in France.

"I will offer this and similar letters by eye-witnesses, directly disproving the statement of the War Department that only eleven soldiers were hanged in France," announced Watson. "I will offer a letter from one man who was eye-witness to four hangings at Gievres, where the war department says only one man was hanged."

MAYBE HE OBTAINED BOAT

Contractor E. B. Brown, 800 East Elk street, remarked at 2:30 o'clock yesterday afternoon that he was going home to trade his Saxon for a 1922 model Maxwell. However, Old Jupiter Pluvius began to act up a few minutes later and it is not known whether he carried out his intention or not.

Millions Involved in Suit in U. S. Court

LOS ANGELES, Dec. 20.—Involving a process, declared to be one of the most important in the oil refining industry, the Universal Oil Products company will seek an injunction and an accounting which will run into many millions of dollars through a suit on file in the United States District court and directed against the Union Oil company.

The plaintiff corporation, which is controlled by the Armour Packing interests, charged the Union Oil company with infringement on patents covering the treatment of crude oil and the process of refining by which gasoline and kerosene are extracted.

POSTOFFICES GO, AGREED

WASHINGTON, D. C., Dec. 20.—All of the powers now maintaining foreign postoffices in China—Japan, Great Britain, France and the United States—have agreed at a secret session of the far east committee to remove these postoffices by January 1, 1923. Japan's consent, it was learned, was made conditional upon Tokio's giving official assent, but this was expected.

Fred Decker Freed In Murder Case Probe

COLUMBIA CITY, Ind., Dec. 20.—Acquitted by a jury of complicity in the murder of Leroy Lovitt, Fred Decker today returned to his farm near Atwood. The jury was out four hours and forty-five minutes taking four ballots before the verdict of not guilty was reached.

Tears streamed down the face of Decker, who was termed by the state the "brains" of a plot to collect $20,000 insurance through the murder of the Lovitt youth, as he embraced his wife and received congratulations of his neighbors, when the verdict was returned. Decker's mother and brother, Calvin, are yet to be tried on charges of murder in connection with the slaving.

Holdup Takes Place Near Police Station

NEW YORK, Dec. 20.—Five highwaymen held up two messengers of the Green Point National bank in Brooklyn, knocked one of them unconscious and got away with $1,676, the payroll of Eberhardt-Faber Pencil Company. The holdup took place opposite the Green Point police station. Police have descriptions of two of the bandits.

AIRPLANE IS SUBMARINE

Andy's Aeroplane, 1418 South San Fernando road, became a submarine a couple of hours before dawn yesterday morning, according to W. L. Anderson, who remarked yesterday afternoon that the establishment had been almost drowned out. During the last rain the canvas roof did not leak and Mr. Anderson, therefore, concluded that it was unnecessary to paint it. Now he wishes that he had.

BETTER PHONE SERVICE

Still better telephone service will be possible in the future from the Bentley-Schoeneman Lumber Company, 460 West Los Feliz road, according to George Bentley, who stated yesterday that a new telephone switchboard, connecting the office and yard with two trunk lines, has now been installed. The numbers will remain Glendale 48 and 49. The voice at the other end of the line belongs to Miss Marian Jones.

POWER OF PRINT, WHAT?

"You moved me a whole block last week in The News," laughed Charles Hipp, the Southern Glendale baker, yesterday afternoon. His new bakery at 1408 South San Fernando road, is next door to the premises he is now occupying. As soon as the counters and fixtures have been installed, he expects to move into his new quarters.

SWEARS THIS IS TRUE

"Tourists haven't the money this year that they had last," declared J. W. Mueller, 1414 South San Fernando road, yesterday afternoon. "A customer was in the dickens of a fix not long ago because 10 cents' worth of hamburger wasn't enough and 15 cents' worth would be entirely too much."

NEW PHARMACY TO OPEN

The formal opening of the Maple Avenue Pharmacy, 629 South Brand boulevard, probably will be held some time this week, according to its proprietor, H. D. McKevitt, who is spending his time getting the counters anchored into place, the fixtures installed and the merchandise displayed.

Mr. McKevitt has been connected with the drug business for the past thirty-five years. During the past ten years he has been a resident of Glendale and has been employed by the Sun Drug company and at Nesom's Drug store, Sixth and Hill streets, Los Angeles.

NAME THIS BABY DOLL!

If you saw a little brunette in a window, what would her name be?

C. L. Brenkman, 1524 South San Fernando Road, promises to award a "Baby Mine" doll to the person who can guess her name. The doll's given name and the surname are both a secret, and the person, who guesses nearest it, will be given the doll Saturday night.

Toys, dolls and Christmas tree ornaments are all going fine, according to Mr. Brenkman. Mrs. Brenkman is of the opinion that a great many Christmas trees will be decorated this year.

A. J. THIELEN IS OWNER

A. J. Thielen, 145 East Adams avenue, Eagle Rock, is now sole proprietor of the tinshop, 1418 South San Fernando road. F. A. Yaeger, 119 East Cerritos avenue, having sold out his interest in the shop, announced Saturday that he intended to look around for another business opening. Outside of his "Lizzie" having undergone a major operation recently and had a new carburetor installed Mr. Thielen had nothing to report yesterday.

COMPANY INCORPORATED

L. W. Russell stated yesterday afternoon that the organization founded by him at 1531 South San Fernando Road has now been incorporated as the Russell-Pierce Furniture Manufacturing company with himself as president and treasurer and R. E. Pierce as vice-president and secretary. The incorporation is for $50,000. Mr. Russell declared that it was not intended to sell very much stock. He said that the business would be managed as heretofore.

QUARANTINE STILL HANGS

C. M. Meechem of the Tropico Garage, 410 West Los Feliz Road, stated yesterday that he was still hoping that sometime all of his family would be out of quarantine. He says the health department's culture always seems to find one "ornery" germ in Charlie's throat although "Bobbie" is all right. Verta Maggrill, daughter of Mrs. Nettie Maggrill, is also quarantined at 816 South Glendale avenue but is getting along nicely.

DOES YOUR ROOF LEAK?

T. B. Reavis, 1530 South San Fernando Road, remarked yesterday afternoon that he didn't know any reason why rain should interfere with anyone redecorating the interior of their home—provided the roof didn't leak. He admitted, however, that it did not seem wise to paint the exterior while the rain was exercising.

Alfalfa has been cultivated since before the time of Christ.

All with a few Cornell Panels

Order today and keep them handy!

With a few packages of Cornell-Wood-Board you can
—finish an attic, basement or spare room, or line your garage against the frigid blasts of winter
—construct a partition or a closet—or the walls and ceilings for the whole interior of the building.

Besides, there is nothing more fascinating in the Manual Training of your boys and girls. "Making things" with Cornell-Wood-Board gives useful amusement to thousands of old and young.

But be careful to get the genuine Cornell-Wood-Board because our "Triple-Sizing" process gives Cornell triple the protection of ordinary wallboard against warping, buckling, sound and change in temperature, and makes Cornell strong and rigid. FORMER PRESIDENT WILSON EXAMINES 4-POWER TREATY

Remains Silent on Agreement So Far; Holds Meetings With Friends

By DAVID M. CHURCH
Written for International News Service
Copyright, 1921, International News Service.

WASHINGTON, D. C., Dec. 20.—Woodrow Wilson has sent for a copy—a certified copy—of the new four-powered treaty of the Pacific.

He asked one of his senatorial friends at the capitol today to get one, and also to get him a copy of the new directory of the sixty-seventh congress. He would like them as soon as possible.

Whether this request on the part of the former president presages his intention or re-engaging in the political turmoil on the hill, none of his friends would say today, but it was taken as proof positive that the influence of Woodrow Wilson would make itself felt in the treaty discussion that lies ahead.

For the time being, Mr. Wilson and his friends at the capitol are counselling silence on the question of ratification of the new four-powered pact. They want time to consider the developments of the last four weeks before committing themselves to any line of action.

Not Much Difference

The former president is understood to have taken no definite attitude on the treaty yet, although it can be stated that he sees no difference between Article II of the new treaty and Article X of the much-fought and finally defeated covenant, except a difference in phraseology. The moral committment, Mr. Wilson and his friends believe, is the same in both articles.

Mr. Wilson, however, has refrained from expressing to any of his supporters what he thinks ought to be the democratic policy. He is understood to have voiced the opinion that the democratic attitude should be adopted with reference to the works of the conference as a whole, rather than with reference to one of the several treaties that are emerging from the parley here. He thinks, according to his friends, that the treaty, which replaces the Anglo-Japanese alliance, the treaty on Yap, the treaty on naval radio, and the nine-powered agreement regarding China should be considered together.

In the quiet of his S street home, the former president, is reading and studying every phase of the Washington conference.

Reads About Conference

"With his return to comparative good health, he is now doing more work than at any time since he left the White House," said one of his frequent visitors today. "He is a voracious reader of everything pertaining to the conference."

Mr. Wilson already has familiarized himself with the terms of the treaty as printed in the newspapers. He apparently, however, was not satisfied with this, but wanted a certified copy—the kind of copy with which the senate itself will have to deal with when it reaches the stage of ratification.

There will be plenty of time for Mr. Wilson and his supporters to formulate their policy with regard to the works of the conference.

It is not likely that President Harding will transmit the four-powered treaty until he is ready also to send up the Yap agreement and the naval treaty.

Meetings Being Held

Because of the holiday recess the senate will not get around to considering the documents until well into January.

The former president is maintaining a close liaison with the situation in the senate. Each week some of his supporters on the hill drop into the S street house for a chat about the current events. According to these visitors, the former president has expressed himself as pleased with a limitation of naval armament as agreed upon, but has counselled time and silence concerning the more political phases of the conference.

Some recent callers at the Wilson home have been William A. McAdoo, former secretary of the treasury; Cleveland H. Dodge, one of his original campaign supporters; Norman Davis, of the Morgan banking house; former Secretary of State Charles Dana Gibson of New York, and a few close congressional friends.

Arizona's Team Ready for Game With Centre

SAN DIEGO, Cal., Dec. 20.—The Arizona wildcats are in tip-top form and rarin' to go, according to word received from Tucson today by Charley Paddock, famous sprinter, who is conducting the publicity of the December 26 game between Centre college and Arizona university. The sagebrushers have continued active signal and scrimmage since Thanksgiving in the hope of a post season game. Now that the opportunity has come, they are out to make gridiron history by humbling the Kentucky Colonels, just as the latter did by taking the scalp of John Harvard.

Seats were placed on sale today at prices ranging from $1.65 to $5.50. Negotiations are under way to insure against rain. Statistics show it is a 1 to 5 shot in favor of fine weather. The railroads have announced fares one-half round trip excursion rates for the game.

A new world's record for speed in sinking mining shafts was made at Eureka, Utah, recently, when a shaft of three compartments, each about four feet square, was sunk 427½ feet in 31 working days.

'Dead' Man is Called Back to Life by His Wife, He Says

WILMINGTON, N. C., Dec. 20.—The story of how Mrs. Daniel A. Poling, wife of the associate president of the United Christian Endeavor Societies of the World, knelt for more than a quarter of an hour at the side of her husband, who had been given up for dead in a motor accident near here and by mental suggestion and repeated calling of his name brought him back to life is told by Rev. Dr. Poling to the Christian Endeavor World.

Dr. Poling, who attributes his recovery to a miracle, suffered a broken back in the accident, yet is walking around today, seemingly as well as ever except that he sometimes uses the support of a cane.

Faith in her ability to restore her husband to life was so great that Mrs. Poling refused to leave his side even when told that he was dead. Not for an instant did she relax her efforts to call him back, though bystanders tried to draw her off, unable to bear what seemed the tragic futility of her attempt. She was finally rewarded by a flicker of the "dead man's" eyelids, and from that time on Dr. Poling continued to get well.

The accident was caused by a broken steering wheel which snapped while the car was going at a speed of less than twenty-five miles an hour. The car swerved and dashed into a telegraph pole at the side of the road. Dr. Poling, who was driving, was crushed in the wreckage and only the almost superhuman efforts of Mrs. Poling, who bent the steering wheel aside, saved him from instant death.

Dr. Poling is well known, having been here some years ago in a crusade against whiskey. At that time he was working with ex-Governor Stanley, who was later killed in an automobile accident.

Fireworks can be traced back to the Thirteenth century.

GRAND COMMANDER KNIGHTS TEMPLAR GIVEN WELCOME

W. M. White and Party Have Large Reception; Local Commandery Honored

(Continued From Page 1).

form at the front of the hall was the table for the grand officers. In the center was a small, decorated Christmas tree. The next table was for the wives of the grand officers and visiting commanders. This was centered with a miniature snow house made of cotton. Sprigs of holly were scattered over the tables.

Mrs. Daniel Campbell acted as master of ceremonies, and again proved herself to be a most genial and gracious hostess. As the commandery members came into the banquet hall they marched under an arch of yellow chrysanthemums, passing between the two rows of hosts and hostesses holding these long-stemmed blossoms, and singing "Onward No. 53, Onward, Forward March" to the tune of "Onward Christian Soldiers." After all had taken their places in the banquet hall Grand Prelate Thomas led in prayer.

Short Talks Are Made

A most delicious supper, including chicken patties, olives, ginger ale, ice-cream, cake and coffee was then served, during the course of which Mrs. Daniel Campbell greeted the visiting officers and expressed her thanks for the loyal support which the commandery members have given her husband during his term of office. A toast to Mr. and Mrs. Daniel Campbell was then proposed by Grand Commander White.

Short talks were given by the other visiting officers in which they expressed pleasure at the very enjoyable evening which had been extended them and also thanked Mr. and Mrs. Campbell for being the "ideal host and hostess." Mrs. Campbell then presented Christmas gifts to the visiting officers. To Grand Commander White she gave a large package, which she stated contained "something that had been specially made in Glendale for the occasion" and which proved to be "just a good tin loving cup with three tin feet" which had been made by the tinsmith in Glendale. In a like manner she presented the others with trinkets.

The women present, under the direction of Mrs. Campbell, surprised the visiting commandery members with yells for each commandery, who responded with three rousing cheers for Glendale Commandery No 53.

After Mr. Campbell had expressed his pleasure at the large number who had turned out for the reception despite the inclement weather, he thanked the wives of the officers of Glendale Commandery and also the present and past worthy matrons and patrons of Glen Eyrie chapter, O. E. S., for assisting in serving, and the meeting adjourned.

School Girl Defying Anti-Lip Stick Rule

KNOBTL, Arkansas, Dec. 20.—Pearl Pugsley, 18 year old Knobel high school girl who was dismissed from school by the authorities, because they said, she refused to comply with their anti-lip stick order, prohibiting the use of artificial aids to beauty, is being deluged with letters congratulating her on her action in defying the school board and offering everything from positions to marriage.

"I receive scores of letters each day," she said today, "but I would rather go to school. I shall not consider any of the business propositions at present."

Miss Pugsley's application for a writ of mandamus compelling the school authorities to admit her was put over until the March term of court.

DETROIT, Mich., Dec. 20.—Henry Ford says that business could be made good and the cost of living reduced if it were not for the short-sighted greed of manufacturers and merchants who persist in clinging as near to war prices as possible.

"A clerk in a shoe store, after he had waited on me today, asked me when business was going to pick up," said Mr. Ford.

"'How much would you charge a man worth $100,000 for a good pair of shoes,' I asked.

"'About $13,' replied the clerk. 'You sold the same pair of shoes before the war, didn't you, for $6?' The clerk said that was correct. 'Well,' I replied, 'business will pick up and be good just as soon as you put the price of those shoes at $7.' There is no sense in present prices," continued Mr. Ford. "I have compelled everybody who sells material to me to sell it at pre-war prices or a little more. When I cut the price of my car, a year ago, I refused to pay more than what I am now paying for materials.

Urges Buyers' Strike

"That is what the public should do—refuse to buy at present prices. The thing can be done, too. I remember that, before the war, I was told that the best place in Detroit to buy beefsteak was at a little German meat shop in the outskirts of the city. I once went in and bought a T-bone steak and it proved to be so tender that it could almost be cut with the back of a knife. The German charged only 18 cents a pound while other dealers were getting 45 cents. I asked the German why he charged so much less than other dealers. 'This is a Hungarian neighborhood,' he replied. 'And those Huns positively will not pay any more than I am charging.' I afterward learned that a wholesaler, knowing the situation, was selling meat to the German at lower prices than he charged other retailers, thus enabling him to make a profit.

"Manufacturers and merchants can cut prices if they want to. When I determined to cut the price of our car, the man who was at that time treasurer of the company, told me that I had reduced the touring car to less than the cost of production. 'Well, if you think so,' I replied, 'I will just cut $10 more off the car.' and I did. He figured that we lost close to $18,000,000 on the cars already in stock and I don't know how many more millions during the year. We did not lose anything. We made money.

Favors Price Cutting

"That is the way I believe in running a business. I cut the price of the car at a time when we were selling all we could make. But if prices can be cut, I believe always in cutting them. It is good business sense to do so.

"Right now, the steel mills are running at only part capacity, though every railroad in the country needs rails. We need rails on the D. T. & I. But so long as rails are more than $40 a ton, we shall not buy a rail. We'll use the ones we've got until they are worn down to wires before we will pay more than $27 or $28 a ton."

DISABLED VETERANS FAVOR ABOLITION OF POISON GAS

Invalids in Hospital, Home From World War, Plead That It Be 'Cut Out'

By WM. K. HUTCHINSON,
International News Service Staff Correspondent

WASHINGTON, D. C., Dec. 20.—The voice of America's shattered manhood, back from the war with wounds, rose from the beds of Walter Reed hospital today with an appeal for the abolition of poison gas warfare.

A score of shell-torn veterans, some modestly hiding medals, bitterly condemned chemical warfare as too inhuman. All of them went through the "mists of death" on the fields of France. Some still coughed from gas-seared lungs.

One man, sans leg, sans arm, but still dead game, spoke for a dormitory of suffering Yanks.

"Gas is a thing from hell," he said with conviction. "It was born of a thirst to torture. These boys (with a sweep of his one good arm) went through it. They'll say, 'cut out the gas'."

With a roar came back the answer from the invalids, "we'll say so!"

Some of the veterans, wearied a little from three years in hospital beds, were bitter towards all war.

"What does it matter what is used, so long as there is war?" was their hopeless question.

Too Horrible for War

"I'd face bullets any time sooner than gas again," said Frank Babbitt of Pittsburgh. "I saw men slobbering at the mouth from gas. That was enough for me. It's too horrible for war.

"I saw men droop like parched flowers in gas attacks. Let the conference rule it out," declared Ralph Shortell of Philadelphia.

"The horror of poison gas should make nations discard it," declared Edward J. Knadler of Cleveland.

"Part me from it, buddy," said Lewis J. Patterson of Francis, Okla. "I'd walk in front of a machine gun any old time rather than face a gas attack."

"I want none of it," came from Jimmy Daugherty of of Bradford, Penna. "It smells like perfume, the first breath—and after that you never get a good breath again. Let them rule it out."

"Gas is fine business for the general staffs in planning attacks, but hell for the men. I say toss it out of warfare," was the vote of Willie Sanderson of Florence, Minn.

'It's a Whiff of Hell'

"A gas attack is a whiff of hell. Rule it out," asserted Fred Piggett of Chicago.

"There's nothing worse than gas," said Frank Jarrett of Alva, Ills. "Thank God if the conference eliminates it from future warfare."

"Gas is too inhuman even for war. Here's hoping the nations outlaw it," said Lewis Alberti, of Beaver Falls, Pa.

"All's fair in war and it don't make any difference to the man how he dies. Gas is easier than high explosive shells but with gas gone, they might end all war," said Wm. J. Moffit of St. Louis.

Captain Webb, of Cleveland, was one who favored gas. "This man's country must win, and in the next war, "we'll have the gas to win."

Mrs. Peete's Appeal Continued by Court

SAN FRANCISCO, Dec. 20.—Argument on the application for a writ to have vacated the judgment of the Los Angeles county court through which Mrs. Louise Peete is now serving a life sentence in San Quentin prison for the alleged murder of Jacob C. Denton, Los Angeles mining man, went over to January 7, when called before Federal Judge Dooling. The postponement was at the request of the state. The presence of Mrs. Peete in court had been waived by her attorneys.

George D. McDill Is Not Correctly Quoted

George D. McDill, who spoke at the Presbyterian church Sunday, was incorrectly quoted in The Glendale Evening News Monday regarding expenditures by the Y. M. C. A. The idea which he was trying to make clear was that expenditures for indulgences (such as chewing gum, tobaccos, candy, soft drinks, etc.), was greater by far than the total now spent in Christian work.

NEW YORK, Dec. 20.—Fire in the church of St. Stanislaus in Brooklyn did $100,000 damage and drove twelve nuns from the dormitory adjoining the church, into the street.

Checkoff System Will Be Heard in Court

CHICAGO, Dec. 20.—The injunction forbidding the use of the "checkoff system" of collecting union dues in the mines of West Virginia, which was granted by Judge Anderson at Indianapolis several weeks ago, was ordered recast today by the United States Circuit Court of Appeals. The case was remanded to Judge Anderson and a temporary injunction ordered pending a rehearing.

Men Refuse to Work With Troops in Field

FRANKLIN, Kans., Dec. 20.—Miners of the Santa Fe mine No. 17, of the anti-Howat forces, walked out of the pit, declaring "we will never dig another shoveiful of coal while troops are in the field." Their decision was reached at a meeting in which they voted to "join Howat until the troops had been pulled out." The miners, it is said, although opposed to Howat, resent working under the protection of militiamen.

Shortage of Radio Operators Reported

SAN DIEGO, Dec. 20.—Shortage of radio operators, due to insufficient appropriations, have forced the government to abandon the Point Arguello wireless station, it was learned here today. The station was established sixteen years ago as an emergency relay point for messages between San Pedro and San Francisco, and to broadcast weather reports and communicate with nearby ships at sea.

Improved efficiency in the low-powered apparatus used on ships now enables shore stations at great distances to pick up the signals, decreasing the need of "link" stations between the central radio points, it was further explained. Several similar stations will soon be silenced, it was said.

Mariners generally disapprove closing these stations on the ground that it reduces the number of "ears" listening for S. O. S. signals, and that they have insured receipt of hydrographic reports in storm and static interference periods when they were most needed.

GIANT OF JUNGLES AND BOY ACTOR WILL APPEAR

Big Time Is Arranged for T. D. & L. Patrons; Young Folk Have Their Day

Manager Ralph Allan, manager of the T. D. L. theatre has arranged to hold two personal appearances at his house today and tonight. The players are Zeda, the giant Zulu of "Miracles of the Jungle" serial which delighted so many children, and Coy Watson, Jr., the boy actor who starred in the comedy, "Nick of Time Hero" which is now playing.

Each will appear three times during the day in the "picture making" clothes, just as you please for amusement. While these added attractions are of interest to everyone, Mr. Allan planned them largely for the benefit of the children and to fulfill his promise to the Intermediate School Parent-Teacher association for whom a benefit is being held today. No doubt their wish is satisfied in the selection of Zeda and Coy.

Many Children to Attend

Inasmuch as it is the closing day of school, there is expectancy on the part of every kiddie at the Intermediate and other schools in the opportunity of seeing these "movie wonder people."

For the adults there is "One Arabian Night" as the feature with Pola Negri in the star role—a picture which has made a deep impression with all who have seen it. Tonight is the last opportunity of seeing this film here. Olsene at the organ also has arranged a special program of music.

Indeed, it will all be like a fairy tale for the children, says Mr. Allan and he is only sorry that every seat is not in the front row.

French Authorities Surprised at Demand

PARIS, Dec. 20.—"France's demand for a navy equal to that of Japan, which has aroused a storm in Washington, London and Paris, was largely the result of personal initiative upon the part of the French delegates attending the Washington conference, it was learned from high naval sources. Most of the members of the government said they were taken completely by surprise by the news from Washington.

The foreign office was astounded at the widespread reaction from the French naval program. Foreign office officials said they could not understand why any one should doubt France's necessity for a large fleet to protect French colonial interests. These interests, officials claimed, are equal to those of Japan in the Pacific. It was officially admitted, however, that France will not allow her claims to interfere with the Washington negotiations.

COMMENT
THAT'S ALL

Beyond Human Control
Higher Cost of Living
Senator Johnson's Record
If It Had Snowed—

By Gil A. Cowan

WATER, water, everywhere and no ark in sight!

While Glendale is being washed over quite copiously, it is not enjoying half the bath that Long Beach, San Gabriel valley and other sections of the county are getting.

Comment seems almost unnecessary on the rainstorm, for its effect is self-evident. The good nature of flood sufferers, however, is the beacon light of the whole situation.

They fully understand that there is no human control of the elements and let come what may, everybody will have to grin and bear it.

Every once in a while somebody is taking the joy out of life. Secretary of Agriculture Wallace wanted to cheer the Boston baked bean townfolk, so he says, says he, that the cost of living is going to go higher when the farmers get paid what they're worth.

Many Iowa people in Glendale know Mr. Wallace personally, used to subscribe to the Wallace Farmer and believe implicitly in what he says. Undoubtedly they hope he is right for anybody who owns farm lands in the middle west or holds a mortgage on the property knows that agricultural pursuits are presently unprofitable.

At the same time, anybody in business or working for wages realizes, also, that their labors are for little or naught. Practically the only two classes who are taking a profit today are the capitalists who have invested in non-taxable bonds and the successful professional people.

And no one under ordinary conditions would deny that either of these two favored classes are making too much.

Senator Hiram Johnson, his hair silvered in the service of his state and nation, is visiting for a few brief hours in southern California.

As years flit past this great man's wisdom seems more apparent. Alone with Senator Borah he stemmed the tide which would have taken America into an alien league of nations and its foreign entanglements. The Harding disarmament conference has been the net result of America's withdrawal from Versailles parley. And now it may be necessary for the California watchdog to grab onto the coattails of the foreign diplomats and make them drop several foreign-made agreements derogatory to the United States.

From a standpoint of negative achievement in the face of overwhelming odds, Senator Johnson has made a record among Americans.

While worrying about the wetness, what would happen if it ever snowed here.

Really, folks, things are never so bad but what they might be worse.

If it should snow here the way it does in Waukesha, it is hard to think how many roofs wouldn't leak, or how many cars would be snowbound, or how many coldfeet there would be.

Almost makes one shiver to think about such a climatic catastrophe.

Mr. Zero Devotes His Attention to Parley

WASHINGTON, D. C., Dec. 20.—Urbain Ledoux, who won publicity as "Mr. Zero," the self-appointed shepherd of the unemployed but who has recently been devoting his attentions to the Armament conference, has applied to the local police for a warrant on charges of "trafficking in stolen goods." Ledoux alleged that the treaty covers territory taken by force and that it is illegal under common law.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating Too Much Meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. —Advertisement.

NORTHWEST PICTURE TAKEN BY GEORGE LARKIN SHOWN

Glendale Theatre Is Given First Release; Story by Dickens Picturized

George Larkin, whose letters to The Glendale Evening News will be recalled by readers, appears here at the Glendale Theatre today in the first release of the pictures he filmed in the northwest. This two-reel production is called "Roaring Waters."

"Our Mutual Friend," one of the most unusual photo-dramas movie fans of Glendale have had the good fortune to view in many months continues to draw and it will be shown for the last times today.

This human visualization of Dickens' last complete novel, which many critics say is the greatest of all his masterly writings, seems to have struck a responsive chord with the moving picture public in every city where it has been shown.

"Our Mutual Friend" proves an effective retort to the fallacious belief that movie patrons still prefer the "hard boiled" type of picture to screen versions of famous classics.

Long after the final showing of "Our Mutual Friend," this fascinating story of romance and mystery will prove an interesting subject for discussion among the better class people of this city.

"Penny in the Slot," a Rolin comedy, and International News complete the bill.

Half Million Secured in Numerous Holdups

PHILADELPHIA, Pa., Dec. 20.—The city is gasping at a total of 190 holdups in the last thirty-nine days, in which bandits obtained nearly $500,000 from the victims. Although the average has been five holdups a day, few suspects have been arrested and little of the loot recovered.

With a population of more than two million, Philadelphia has only 4,000 policemen. A recent move to increase the force by 1,000 men was cut to 125 by the city council.

"Let'r rain!" exclaimed B. G. Jackson of the Jackson Service station, 1600 South San Fernando Road, yesterday afternoon, generously. He didn't seem to be the least worried about his gasoline spoiling and declared that the red cast iron tanks were both air tight and moth proof.

Oakland Builds a Guarantee Into Every Oakland Engine

A number of very noteworthy features have been incorporated in the Oakland Six Engine—features new, original and marking a definite advance in the science of engine building.

Cylinder walls are "honed" to a glass-like smoothness by a process perfected in the Oakland factory—special alloy pistons carry oil-sealing piston rings of exclusive design.

Long and vigorous driving tests by Oakland have thoroughly established that these improvements effectively eliminate what is commonly called "oil-pumping"—a source of annoyance to drivers of motor cars.

So certain is Oakland of this special construction that it absolutely guarantees every new Oakland 34 D Model against "oil-pumping" with a 15,000 mile written guarantee.

Come in and inspect the engine that carries this sweeping guarantee and see the five attractive body types offered.
